

# Wood Pellet Fuel Production Conference and Exhibition

Wednesday 2nd February 2005  
National Energy Centre, Milton Keynes

When is waste not a waste? If you have a supply of clean wood waste it can be converted into a valuable heat source in the form of wood fuel pellets either for your own use or for commercial sale. This event will provide you with a comprehensive briefing on wood pellet production and supply.

## Topics covered:

- suitability and supply of raw material
- economics,
- plant,
- pellet quality and regulations,
- different scales of production – from workshop to large scale
- marketing of product.
- Practicalities – Siting, Installation & Operation
- Funding opportunities

National Energy Centre new building

The day is designed for individuals and organisations in the wood industry who could consider using their co product as wood pellet fuel for their own consumption or for commercial sale.

## Fees

**Full price:** £100 **Not-for-profit organisations:** £60 **Students:** £35 **Exhibitors:** contact us for details (VAT, parking, lunch and refreshments are included). 20% discount for British Pellet Club members.
