

New Machinery Ring for Timber Producers
FREE: Discussion and Information Evening

Wednesday 29th June

7:00pm - 9:30pm

At the Woodland Enterprise Centre, near Flimwell

Refreshments available

- HAVE YOU GOT KIT SITTING THERE AND NOT BEING USED?
- DO YOU NEED A BIT OF KIT, BUT CAN'T AFFORD IT YET?

If you would like to find out more, Don Cranfield (Plumpton College) and Angus Campbell (RAMSAK, Ring of Agricultural Machinery in Sussex and Kent) invite you to attend an informal evening to discuss the practicalities and advantages of sharing equipment by becoming members of a Timber Producers Machinery Ring.

Come along to discuss your needs and to find out how the Machinery Ring will work (insurance, maintenance, database, etc). Members will be able to hire out their equipment on a controlled basis to other members and so make maximum use of equipment that would otherwise stand idle. They can also hire items of equipment for their own use as and when needed from other members.

RAMSAK are well-established and respected in the farming community for the service they provide and may already have suitable equipment available.

RAMSAK are keen to support and help develop this idea and hope to encompass this within the existing Ring. With the existing infra-structure and extensive database in place already, this sector could be developed relatively easily and costs would be low.

FREE, but booking is essential:
