## **RENEWABLE ENERGY FOR PLANNERS**

### **The Sustainability Centre, Hampshire**

This series of two-day courses is designed to familiarise planners and those in similar professions with the range of renewable energy technologies currently being installed in the UK.

**Solar electricity**  
**Solar water heating**  
**Wind energy**  
**Micro-hydro**  
**Bioenergy**  
**Heat pumps**

*Solar water heating, solar electricity and biomass heater at the Sustainability Centre*

**VENUE: The Sustainability Centre in Hampshire**

See - <http://www.earthworks-trust.com>

The Centre is situated in the top of the South Downs, has an information centre and hosts several green businesses. The Centre's hostel has solar water heating, a solar electric roof, a wood-chip heating system and has been refitted using sustainable building materials.

**ACCOMMODATION:** Available in the hostel, if required.

**DATES:** Tuesday 7 & Wednesday 8 November, 2006

Further courses are planned for 2007.

**COURSE CONTENTS:** For further information about course contents, contact course tutor Frank Jackson at [info@greendragonenergy.co.uk](mailto:info@greendragonenergy.co.uk).

**REGISTRATION:** To register and obtain details of course fees, accommodation arrangements and how to get there, contact the Sustainability Centre's Courses Officer, Raina Jones, tel: 01730 823166, email: [info@earthworks-trust.com](mailto:info@earthworks-trust.com).
